Cross-border eSolution/eService Prototype Development

Prototype title:
Web 2.0 Knowledge and Content Sharing for Business: IBM Connections

Short description of the prototype (problem to be solved, expected benefits, main stakeholders, expansion opportunities, related EU projects, references):
Project goal is to establish a simple tool for   - quick internal communication,   - sharing knowledge *and*   - innovation management   within organization or between organizations in the region.   Single software package with built-in Web 2.0 technologies has to offer flexible environment with the capability of rapid implementation and such ease of use, that the end client will not require specific introduction of the product.   With the help of Web 2.0 technology, this user interface will be able to connect employees and external collaborators in the workgroups and interest groups. User interface provides capabilities of fast and transparent content-sharing, file sharing, group notifications, publishing guidelines, rules and tasks. Native applications for Android and iOS are available for all functions therefore the use of mobile devices (smartphones and tablet computers) is fully supported.   The implementation of IBM Connections has to reduce the costs of partial software development of the unrelated Web 2.0 solutions and combine them into one place.   All standard web browsers are supported (Microsoft Internet Explorer, Firefox and Safari).   The main stakeholders of the project are MPJU, IBM, SRC d.o.o., Eotvos Lorand University, employees of ELU, employees of MPJU.   Related EU projects are: Web 2.0 ERC project, MobiWeb2.0 Project, NetKnowing 2.0 ...

ICT requirements for the prototype deployment:
Server: Linux server: 8GB RAM, 100GB HDD, 2xcore, open port 443,   LDAP server   PC running a standard Web browser   iOS or Android based Smartphone

Proposer (contact person)

Name, family name	Nemanja Malbašić	Position	CIO
Organization	SRC d.o.o.		
Postal address	1000 Ljubljana	Country Slovenia	
Email address	nemanja.malbasic@src.si	Web address:	http://www.src.si
Telephone	+386 1 600 70 00	Mobile	

Existing partners (representative, position, organization, country):
MPJU, Eotvos Lorand University

What type of partners are we looking for?

All organizations in need for internal Web 2.0 software solutions.
Business need: faster and easier exchange of information and knowledge, internal communication support, file sharing.
