e-mail address	pacho_pg@abv.bg		
Number of employees	5	Year established	2009
Contact languages	English, Bulgarian		

### Brief description of the company

(Provide a short description of your company's activities, products and/or services, advantages and innovation)

We planted the first walnuts and hazelnuts in 2009 with the aim of organic production of raw materials and finished products from walnuts and hazelnuts. We have a certificate for bio production, issued by Macom Certification Company. In the beginning, we only produced walnuts and hazelnuts, which are also the first organically certified products. The hazelnut and walnut plantations have a total area of 7 ha. Subsequently, we built our own production base, in which we started processing raw materials (peeling, drying, cracking, cleaning, sorting) and production of tahini, halva, cold pressed oil, caramelized nuts and raw nuts.

Currently, the company's product list includes 12 types of tahini, 8 types of oil, 4 types of halva and several types of nuts. Bio Yadki Niki is also the winner of several awards from participation in exhibitions: diplomas, certificates and best product - 2 years in a row.

### Reasons for your interest in the Business Co-operation

(What kind cooperation are you looking for? Are you interested in selling and/or buying? What kind of business partners are you looking for? What do you expect from the potential business partners and what kind of partnership?)

Our philosophy is to produce high quality, clean products that are healthy and tasty. At the moment, our products are offered on the territory of the Republic of Bulgaria, but our ambition is to offer them outside the country as well.

We are looking for future contacts and partners in all countries of the EU with intentions to sell the products from our company's portfolio there.

I accept that Enterprise European Network Partners use my contact details for the sole purpose of the Business Co-operation Database
