e-mail address	nacho_85@abv.bg		
Number of employees		Year established	
Contact languages	English		

Brief description of the company

(Provide a short description of your company's activities, products and/or services, advantages and innovation)

It all started as a joke back in 2011, when Grandma Maria had 4 beehives and gave her grandchildren Nacho and Nachko one beehive each! With the hope that at least one of them will continue the craft of beekeeping!

Grandma Mary knew that being a beekeeper is a blessing! After deciding that this is their destiny, Nacho and Milena started to work hard to learn the trade! They attend professors' lectures, read loads of books and little by little, with great desire and love, they achieve their goal! And here they are now - their farm has 700 hives, located in 5 apiaries in the foothills of Stara Planina and Sredna Gora. With them you will find absolutely pure and natural bee honey (herbal bouquet, lanadula, acacia, manov, lipov, coriander), without any additional impurities. They also have something interesting that you will really like - PRESSED HONEY. And the product they are very proud of is IMMUNOSTIMULATOR 4. It is a mixture of honey, bee pollen, glue tincture and royal jelly. It is a proven fact that if bees disappear, humanity has 4 years of existence left! For this, let us honor the beekeepers and their work, who undeniably fight to protect these divine creatures on earth!

Reasons for your interest in the Business Co-operation

(What kind cooperation are you looking for? Are you interested in selling and/or buying? What kind of business partners are you looking for? What do you expect from the potential business partners and what kind of partnership?)

Looking for buyers, distributors, importers and other kind of cooperation.

I accept that Enterprise European Network Partners use my contact details for the sole purpose of the Business Co-operation Database
