Dear Partner,

REIF is organized with support of the Ministry of Industry and Trade of the Russian Federation, the Federal Council of the Federal Assembly of Russia and Russian Export Center.

The REIF's goal is to create an international platform for professional dialogue of the business community with Russian business. It's expected to gather delegates from more than 40 countries and the majority of Russian regions. Experts from Federal Ministries, local governments, local producers and foreign investors are invited for participation.

We invite you to form business delegation for participation in REIF 2017 and we would kindly appreciate you provide RTEDC with information about interested companies. These companies might participate with presentation of their own products within REIF Business Program sessions and would also have opportunity to hold prearranged b2b meetings with Russian manufacturers and service providers within organized matchmaking.

Please, take it account that participation for all foreign guests is free. Expenses covering for foreign companies can be discussed. We are sure it would deepen cooperation and strength economic ties between our businesses.
