

About Think Zone

Think Zone, as innovation-type scientific & technological industrial park, was rated as the national-level high-tech business incubator in 2005. After nearly two decades of exploration and practice, the park has become an ecosphere for business startup involving over 600 enterprises and over 10000 pioneers and has established a think zone with “space for mass innovation + Angel investment + international incubation” with incubation-driven cultivation chain.

Think Zone has set up a Angel investment capital pool with nearly RMB 200 million. As one of the sponsors, it also has made investment and taken share in the first venture capital fund in the domestic incubator industry – China Incubation Foundation. To cope with the financing difficulties dwelled in incubated enterprises, the “incubation tone” technological financing platform has been launched in cooperation with banks so as to streamline the financing bottleneck for technological enterprises and boost the enterprises for their successful future through product trade, funds organization and equity transaction.

In the backdrop of “encouraging people to do business creatively and driving innovation” nationwide, Think Zone is geared up to have the “mass innovation space – “Rongchuang Tea House”” established which integrates the tea culture in western Sichuan with spirit of innovation and entrepreneurship as a whole, creating a standardized, comfortable space for communication and business dealing between entrepreneurs and investors, Rongchuang Tea House is an access platform for the entrepreneurs and market, the entrepreneurs and funds and a stage for exchanges between entrepreneurs and the world, opening a layout of “coffee house with entrepreneurship in north and tea house with entrepreneurship in south”.

Think Zone now has cultivated nearly one thousand technological enterprises in total through science and technology incubation, including over 300 well-developed enterprises with more than 120 proprietary intellectual property rights newly increased each year, helping enterprises obtain government financial assistance of over RMB40 million. Think Zone lays emphasis on the establishment of entrepreneurial culture circle, the activities like “innovation competition”, “global business startup week”, “incubation market innovation forum” and “financial investment saloon” are held every year, creating a favorable environment for the development of regional business startup and innovation
