Passenger Transportation		Two transportation companies: Aven-Ezer, LLC. Yaroslav-Avto, LLC.
the largest participant in the passenger transportation market in Kyiv, Ukraine.		
More than 1 million passengers used our services on a daily basis in peaceful conditions.		
Elevators maintenance and installation	 МП «ПРОМКОМПЛЕКС» ТОВ	MP Promkompleks, LLC http://promkompleks.kiev.ua/
Design engineering	 ІНСТИТУТ КДМП КИЇВДОРМІСТПРОЕКТ	Research and development institute “Kyivdormostproekt” http://kdmp.com.ua
More than 40 projects have been already developed.		

Owning the largest vehicle fleet in the country, we have been transporting more than a million people in the city of Kyiv and in its surroundings on a daily basis.

Unfortunately, there is currently an ongoing war in Ukraine due to the aggression of the Russian Federation. Our staff and vehicles evacuated 6 000 civilians from the front zones, namely, from the suburbs of Kyiv (Irpyn, Bucha, Borodyanivka) and Chernigiv city.

We donated to Ukrainian army and for humanitarian supply more than 200 buses, most of them have been destroyed by the occupant’s army.

We firmly believe in the victory of the entire civilized world and we know that the Ukrainian economy will actively recover and grow rapidly after the end of hostilities. In addition, we want to inform you that the government of Ukraine has announced changes in the field of taxation and other areas to simplify business implementation in the country and in order to create more attractive and competitive conditions for entrepreneurs.

Even before the start of the war, we were renovating our own fleet and our subsidiaries so that the passengers could move around the city comfortably and safely. Now, more than ever, we

need a large number of modern vehicles to upgrade and further develop the passenger transportation industry. We are confident that not only the capital, but the whole country will soon be purchasing buses of international quality standards.

With this letter, we ask you to consider possible options for the sale of vehicles in leasing or credit on mutually beneficial terms. We are also ready to become an official representative and carry out all possible preparations for this right now in order to start reviving the infrastructure of our country as soon as possible.

Moreover, in case you have vehicles that are not currently involved in transportation, we will gladly accept them as a charitable assistance. Therefore, we can currently save more civilians' lives.

We believe that such cooperation has long-term and fruitful prospects. You can contact our representative at:
