The Enterprise Europe Network of the Luxembourg Chamber of Commerce invites you to participate in its International Brokerage Event at the World Expo 2020 in Dubai from the 23rd to 25th January 2022.

The aim of the event is twofold

- To help SMEs and innovative start-ups explore the Middle Eastern market and foster international partnership bonds.
- To leverage the international dimension of the World Expo by federating concrete market opportunities and gathering the business community from all over the world through the organisation of tailored and high-quality business meetings.

Highlights of the matchmaking event

Opportunities in the Emirates

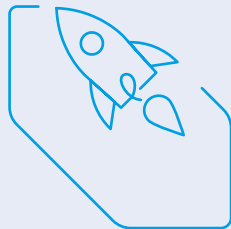

With its expanding economy, the United Arab Emirates is set to carry its growth prospects through the new decade. Being a critical regional hub for the Middle Eastern market, the UAE offers a prime position to engage with gulf economies and China's 21st Century Maritime Silk Road.

At the same time, the country's newfound focus on creating special economic zones along with future structural reforms are coinciding with the World Expo to further stimulate the regions' growth and ability to provide companies, especially SME's, the opportunity to grow and innovate on fertile ground.
