The biennial International Helicopter Technology & Operations Exhibition, better known as Dubai Helishow, welcomes you to the 7th edition of the distinctive trade show dedicated to the helicopter industry from 6-8 November 2018. Under the patronage of His Highness Sheikh Mohammed Bin Rashid Al Maktoum, Vice-President and Prime Minister of the UAE and Ruler of Dubai, the Dubai Helishow will once again represent a unique opportunity for the international helicopter community to showcase their products, services and technologies covering the commercial, civil defence and military helicopter markets. The success of the 2014 HeliShow and the inaugural Dubai HeliConference 2017 demonstrates how important the Middle East is to the industry as an emerging lucrative market.

It's also opportunity for companies to highlight achievements and recent advancements and a platform to meet and interact with prospective customers from the Middle East. With a focus on the future development of the Dubai HeliShow we are delighted to announce the Royal Pavilion at the Al Maktoum Airport; Dubai South will be hosting the 7th edition from 6-8 November 2018. The new venue is the home of the world's largest airport in the making and landmark event Dubai Expo 2020.

## SECTORS IN FOCUS :

### CIVIL DEFENCE

- Helicopters play a significant role in the region's search and rescue operations
- Helicopters undertake accident surveillance on major traffic highways
- Police utilise helicopters for general law enforcement along with a responsive measure to crisis situations and natural calamities
- Vital role for helicopters in fire fighting and evacuations from high-rise buildings

### MILITARY

- Military helicopters play an integral part in the land, sea and air operations of modern militaries
- The high adaptability of the modern military helicopters allows the same modular airframe to be configured for different roles within hours
- Advanced technologies in terms of communication and navigation for mission specific military helicopters
- Middle East defense spending is set to grow further as Gulf Arab nations embark on military modernization programs
- In its annual Middle East market analysis, Forecast International expects defense investment across the region to expand by 14 percent over the next five years. The region's continuation as a leading global area for military expenditure is being spurred by Saudi Arabia and the United Arab Emirates

### COMMERCIAL

- The entry of helicopters into the tourism and hospitality industries gave birth to aerial tourism in the Middle East
- In UAE, especially Dubai many of the high-end luxury hotels are offering deluxe heli-pick-ups and scenic flights for their VIP guests.
- The region is also going through a massive modernisation process and helicopters play an integral role in offshore real estate projects, desert real estate projects, erecting pylons in remote areas to bring electricity, constructing microwave towers and so on
- Helicopter manufacturers, associated products and Middle East being home of oil rich countries, helicopters are widely used for seismic surveys in search of oil and other natural resources
- The offshore industry is supported by the helicopter in transferring personnel and supplies to and from the rigs

### AIR MEDICAL & RESCUE

- The growth of international health care needs has spurred the evolution of the air medical and rescue services in the Middle East
- Middle East region demands the use of helicopters during emergencies and natural disasters to reach places where vehicle access is limited and provide first aid and fly with patients to the nearest hospital
- New and advanced technologies in products and services for transportation of patients to hospital or safety
- Helicopters provide a vital role when other modes of transportation are not viable particularly during times of conflict
