

Dear Friends of Innovation,

We are very pleased to inform you that two leading Indian Incubators have agreed to host a **European Innovation Zone in India (EIZI)** in their premises. An Innovation Zone is meant to facilitate and foster co-creation and co-development between European and Indian innovators through channelling interested European innovation stakeholders through **C-CAMP in Bangalore** and **T-HUB in Hyderabad**, who agreed, on a pilot basis, to welcome the European interested innovators. For more information, see [www.startupeuropeindia.net/eiip](http://www.startupeuropeindia.net/eiip)

The two EIZIs will be presented at our virtual launch event on **Tuesday 13 October at 2.30pm IST / 11am CET**

Although the primary target is a soft landing for the European stakeholders within the Europe-India Innovation Partnership also our Indian partners should join as use the two EIZI as a pathway for further developing their ideas and products.
