2025 – The Year of Environmental Protection and the "Green" Economy In Uzbekistan

For the first time in Uzbekistan! Eco Expo Central Asia 2025

June 19–21

Uzbekistan, Tashkent, “Central Asian Expo (CAEx)”

ECO EXPO
CENTRAL ASIA 2025

Exo Expo Central Asia –
is the largest international exhibition bringing together producersof eco-friendly products, representatives of sustainable businesses, environmentalists, activists, and trade agents from around the world. The event serves as a platform for exchanging experiences and innovations in ecology, environmental protection, and sustainabledevelopment.

www.ecoexpo.uz

Why Uzbekistan?

Geographical Location and Natural Resources

1. **Diverse Ecosystems:** Uzbekistan, located in Central Asia, boasts unique natural conditions, including mountain regions, deserts, rivers, and lakes. These diverse ecosystems require special attention and protection.

1. **Water Resources:** As a landlocked country, Uzbekistan faces the tragedy of the Aral Sea's disappearance, creating significant ecological and economic challenges. This limits access to water resources and worsens living conditions for local populations dependent on water supply. Hosting the exhibition in Uzbekistan will draw attention to these issues and provide an opportunity for discussion.

ECO EXPO
CENTRAL ASIA 2025

Economic Development and Sustainability

1. **Development of Green Energy:** Uzbekistan is actively investing in renewable energy sources, such as solar and wind power. The exhibition will showcase achievements and attract new investors.

2. Agriculture: In recent years, Uzbekistan has been working to implement environmentally sustainable agricultural methods. This includes the use of organic fertilizers, modern technologies to reduce harmful emissions, protect water resources, and develop programs for sustainable agriculture.

Environmental Initiatives and Projects

1. **Biodiversity Conservation:** Uzbekistan is implementing numerous projects aimed at preserving rare species of animals and plants.
   The exhibition will allow sharing experiences and discussing new initiatives.

2. Waste Management: CModern approaches to recycling and waste disposal are crucial for the region. The exhibition will serve as a platform for exchanging knowledge and best practices.

Why Uzbekistan?

Education and Awareness

1. **Environmental Education:** Raising public awareness about the importance of environmental protection is a key factor for sustainable development. Uzbekistan is actively implementing educational programs, and the exhibition will be an excellent opportunity for exchanging experiences.

1. **International Cooperation:** Holding an international exhibition in Uzbekistan will help strengthen ties between countries and organizations working in the field of ecology, and create new partnerships for joint projects.

ECO EXPO
CENTRAL ASIA 2025

Holding the International Eco Exhibition in Uzbekistan will provide a unique opportunity to draw attention to important environmental issues in the region, showcase achievements and innovations, and establish new partnerships to work together on global environmental challenges. With its rich natural, cultural, and economic potential, Uzbekistan is an ideal location for such a large-scale event.

Facts about Uzbekistan

Republic of Uzbekistan: Center of Central Asia

1. **Historical Significance**: Uzbekistan has historically been one of the centers of world civilization. It is the country of the Great Silk Road, the famous trade route, which gave rise to cities such as Tashkent and Samarkand.

ECO EXPO CENTRAL ASIA 2025

Economic Potential and Development

1. **Second Largest Economy in the Region:** Uzbekistan has the largest population in the region—37.6 million people as of January 1, 2025. The country has significant investment potential due to its rapidly developing economy.

2. Economic Reforms: Recent structural reforms are aimed at opening up the economy, strengthening international relations, and liberalizing trade. This has led to increased investment activity and sustainable economic growth.

3. Annual GDP Growth Rate: Uzbekistan's annual GDP growth rate is 6.6% (as of Q3 2024), one of the highest in Central Asia. External financial stability is supported by significant foreign exchange reserves.

4. Key Sectors of the Economy: The leading sectors of the economy include services (36% of GDP), agriculture (25%), and manufacturing (20%). Small and medium-sized businesses play an important role, contributing nearly 55% of GDP and 70% of employment.

5. Foreign Trade Activity: Since the opening of the economy and liberalization of trade and currency policies in 2016, foreign trade activity has increased. Development strategies include creating a favorable investment climate and expanding export geography

Venue:

1. **Capital of the Republic:** The exhibition will be held in the capital of the Republic, Tashkent, the largest city in Central Asia with a population of over 3.0 million people, and an additional 3.0 million people residing in Tashkent Region.

2.Event Venue: Central Asian Expo Uzbekistan is one of the largest and most modern exhibition venues in Central Asia, a member of the Global Association of the Exhibition Industry (UFI).

ECO EXPO
CENTRAL ASIA 2025

Exhibition Sections:

- PROTECTED NATURAL AREAS
- ENVIRONMENTAL EDUCATION
- GREEN CONSTRUCTION
- GREEN TRANSPORT
- GREEN ENERGY
- GREEN FINANCE
- ARAL SEA AND PRIARAL ECOLOGY

ECO EXPO
CENTRAL ASIA 2025

ECOTOURISM

ARTIFICIAL INTELLIGENCE AND ECOLOGY

CLEAN- TEACH

WATER-SAVING GREEN TECHNOLOGIES

GREEN INITIATIVES IN THE FMCG AND RETAIL SECTORS

SUSTAINABLE AGRICULTURE

GREEN CITIES

Landscaping

Participants of the Eco Expo Central Asia will include companies and individual entrepreneurs, manufacturers, and sellers involved in

Green Transport

- Electric vehicles
- Bicycles and scooters powered by alternative energy sources
- Charging stations for electric cars
- Eco-friendly transportation solutions for cities

Sustainable Agriculture

- Organic farming without the use of chemical fertilizers and pesticides
- Agrotechnologies that preserve soil fertility (no-till farming, green manure crops)
- Implementation of agroecological systems and biological plant protection

ECO EXPO

Eco-Education:

- Universities in the field of ecology and sustainable development
- Information technology in environmental education
- Seminars and workshops on sustainable development Educational progrmas and courses on ecology

Eco-Tourism:

- Eco-friendly tours and travels
- Conservation of natural sites and cultural heritage
- Eco-tourism in remote and untouched natural areas
- Sustainable hotel and tourism services

Greening:

- Seedlings
- Eco-technologies in agriculture
- Drip irrigation equipment

Green Finance:

- Green bonds and funds
- Financing projects in renewable energy
- Investments in sustainable development
- Sustainable banking and financial solutions

Participants of the Eco Expo Central Asia will include companies and individual entrepreneurs, manufacturers, and sellers involved in:

Green Building:

- Eco-friendly and energy-efficient building merials
- Sustainable architectural and engineering solutions
- Integration of solar panels and wind turbines in construction

Water-Saving Green Technologies:

- Gray water treatment and filtration technologies for reuse
- Drip irrigation and smart irrigation systems
- Water-efficient plumbing (smt faucets, low-flow showers, and toilets)
- Landscaping with drought-resistant plants

ECO EXPO
CENTRAL ASIA 2025

Clean-tech:

- Water and air purification technologies
- Waste recycling solutions
- Energy-efficient building merials Development of new eco-friendly technologies

Green Initiatives in the FMCG and Retail Sectors:

- Eco-friendly packaging materials
- Sustainable production and recycling of goods Programs to reduce carbon footprints
- Green logistics solutions for supply chains

Artificial Intelligence and Ecology:

- AI for environmental monitoring
- Smart waste management systems
- Algorithms for energy consumption optimization

Green Energy

- Energy solutions based on renewable sources
- Solar panels
- Wind energy installations
- Geothermal systems

Explore New Horizons with Us!

At the Eco Expo Central Asia, exhibitors from the following countries will participate:

China

Uzbekistan

India

Turkey

South Korea

Malasia

Japan

UAE

Saudi Arabia

Azerbaijan

Germany

USA

Tajikistan

Kazakhstan

Kyrgyzstan

Finland

Belgium

Netherlands

Spain

Argentina

Poland

Austria

United Kingdom

Indonesia

Tailandia

and others.

ECO EXPO
CENTRAL ASIA 2025

We ofer you the opportunity to spend time at a major event in Central Asia and enjoy a variety of interactive opportunities:

Additional activities within the framework of the event:

- **Lectures and seminars:** presentations by experts and discussions on current environmental issues.
- **Discussion panels and round tables:** exchange of opinions and ideas on improving the environmental situation.
- **Side events:** Additional activities that complement the main program, providing opportunities for further discussion and networking on environmental topics.

ECO EXPO
CENTRAL ASIA 2025

Key Visitor Categories

- Business leaders and entrepreneurs
- Representatives of corporations, investors, and financiers
- Funds and venture capitalists
- State companies and politicians
- Professional buyers from more than 30 state companies involved in modernization, equipment, and procurement
- Scientists and researchers
- Non-profit international organizations and eco-activists
- Media and journalists from specialized publications
- General public: local residents, students, parents, and anyone concerned about the environment

ECO EXPO
CENTRAL ASIA 2025

Eco Expo Central Asia 2025

This event brings together a wide variety of peopleinterested in preserving our planet. Whether you area business representative, scientist, activist, or simplysomeone who cares about environmental issues, youwill find something important and useful at this exhibition.

Benefits of Participating in the International Exhibition Eco Expo Central Asia 2025

For Exhibiting Companies:

- Brand promotion
- New business opportunities in the B2B, B2G, B2C segments
- Marketing and advertising
- Sales growth
- Showcase of new products and services
- Feedback for product improvement
- Training and experience exchange

For Visitors:

- Introduction to new eco-friendly products and technologies
- Education and awareness-raising
- Opportunity to purchase eco-friendly products directly from manufacturers
- Networking with like-minded individuals and professionals
- Inspiration and motivation for an eco-friendly lifestyle
