

2nd Danube eRegion Conference – DeRC 2012

Grand Hotel Union Ljubljana, Slovenia, Monday - Tuesday, September 24-25, 2012

<http://eLivingLab.org/CrossBordereRegion/DeRC2012>

Cross-border eSolution/eService Prototype Development

Prototype title: “Intermodal and seamless Mobility”

Short description of the prototype (problem to be solved, expected benefits, main stakeholders, expansion opportunities, related EU projects, references):

We facilitate traveling by seamless e-combination of GEO information, real-time scheduling, planning and booking across all modes of transport and across borders

As an independent mobility service provider we ease daily mobility by integrating all mobility service providers (including flight, train, own car, car sharing, taxi, other private and public passenger transport providers...) in one single hub.

All options of how to get doo-to-door from A to B (address precise) are made transparent and filtered according to price, time, comfort and CO2 emissions. The traveler gets the travel recommendation that fits the most to his individual profile.

The traveler can book all means of transport through our web based booking engine via direct interfaces we have with all transport providers.

Using location based services we guide travelers along their trip. Through services like navigation, real-time travel information and location-based push services, we introduce new dimensions to travelling.

In a greater perspective, the target is optimal coordination of all available mobility carriers in the eRegion for domestic and cross-border travelling and we stand for ecologic sustainability in an economic mobility network.

ICT requirements for the prototype deployment:

- Data interfaces to transport providers
- GPS / Galileo
- Service Interface Mobile (iOS, Andoid, BB OS),
- Mobile Applications related to travel
- Social network applications

Proposer (contact person)

Name,	vom Berge, Guido	Position	COO
Organization	Mobiliance AG		
Postal address	Oberanger 38, 80331 München	Country	Germany
Email address	guido.vomberge@mobiliance.de	Web address	www.mobiliance.de
Telephone	+49(0)163 3050519		

Existing partners (representative, position, organization, country):

- Prof. Bernhard Katzy, UniBW, Munich, Member of ALADIN
- CeTIM - Center for Technology & Innovation Management
- Prof. Roumen Nikolov, Sofia University
- Prof. Dragan Ciscic, Rijeka University
- Prof. Gabor, Budapest University
- Fraunhofer Institute, Nürnberg, Germany
- ESA BIC (European Space Agency Business Incubation), Munich, Germany
- Nokia / Navteq, HPI Fleet Management, ehotel, Amadeus, PASS Consulting...

What type of partners are we looking for?

- IT Developers
- Transport providers
- Universities
- Governmental / Public Institutions for pilot project implementations
- Municipals, regions, everyone interested in regional development through improved infrastructure and mobility concepts

To be emailed as soon as possible and not later than Thursday, July 26, 2012 to Alenka.Slabajna@JAPTI.si
