

EU-China Business Technology Cooperation Fair VIII

21-23, Oct. 2013 Chengdu, China

Sector: *Manufacture*

	Company Name	Company Profile	Cooperation Intention
1	SiChuan Cosmos Precision Mold&Die.,Ltd	SiChuan Cosmos Precision Mold&Die Co.,Ltd is a professional mold maker for high prcision tooling, precision tooling spare parts and plastic parts injection, and currently our most businesses are to provide service for foreign customeres such as Tyco,DELPHIFCI and Amphenol. We have a critical quality control system to follow the standards of IS9001 and TS16949. All main equipments are imported from Switzerland and Japan, including 3 sets wirecut of Charmilles, 16 sets EDM of Agie Charlilles, 6 sets CNC of Makino and Charlilles with 42000rpm, 2 sets laser engraving, 10 sets injection machinery with brand of FANUC and LS, more than 10 sets checking equipment including CMM,projector,OPTIV ect.	we hope to cooperate with European customers who have business in plastic mold, mold spare parts,and precision injection. And we can cooperate with the marketing and manufacturing.
2	Chengdu Sigma Precision Components Ltd	Sigma focuses on aerospace components manufacturing and assembling of engine hard pipe, possessing various precision CNC and lathy machine, and a Zeiss CMM, having passed the certificates of AS9100C and NADCAP. All our products are exported to Euro, USA and South Asia, having a long-term and fixed relationship with RR, GE, etc.	We welcome international first-class aerospace manufacturer and special processing supplier, and we can have business cooperation with each other.
3	Sichuan Golden Dragon Machinery Co.,Ltd	Sichuan Golden Dragon Machinery Co., Ltd. (SGDML), located in Chengdu High-Tech Comprehensive Bonded Zone (B), was established in August,1999. With a total number of about 400 employees, our company covers 26,680 square meters, and the area of structure is 21,200 square meters. SGDML mainly produces precision-machined aircraft components and other industrial machined parts and components. The products are used for the aircraft engine, fuel systems, hydraulic systems and flight control systems of Boeing, Airbus engine. The main customers are Parker Hannifin, GE, RR, ABB. All our products are exported overseas.	SGDML's future plan is to develop our capability in aerospace assembly and after sales maintenance service. We will also step into the advanced manufacturing sector and provide the best services to our customers.
4	Kilowood Co.,Ltd.	Chengdu Kilowood CO., Ltd. is a professional manufacturer for all kinds of cutting tools, R&D, manufacturing and sales, possessing about 100 facilities for manufacture and inspection. In 2008, Kilowood won ISO9001:2008 Quality Certification. Since 2009, Kilowood has exported the products to USA, Canada, Russia, and Asia countries in Southeast. Kilowood has a professional team with rich experience for international projects. In 2010, Kilowood supplied all the cutting tools for Kenya High education Project with AVIC_INTL Project Engineering Company and succeeded in service supply.	We want to cooperate with the enterprises for manufacturing and selling cutting tools, and discuss the cooperation in manufacture, deep production, R&D and international business for cutting tools.
5	Chengdu Polygon Technology Co.,Ltd	We concentrate on precision mold development, fabrication, molding, stamping, electroplating, photoelectronics and automation. Our business scope has expanded to consumer and commercial electronics, connectors, auto products, optical products and electrical components. Most of our customers are leading international companies in their fields all over Europe, America, Japan, Southeast Asia and China.	We hope partners can provide integrated solution for clients. The main form of cooperation is R&D, and technical cooperation.

EU-China Business Technology Cooperation Fair VIII

21-23, Oct. 2013 Chengdu, China

Sector: *Manufacture*

6	Chengdu Lianyu precise machine Co.,Ltd.	Our company mainly produces the high-precision multi-cavities mould that used for drinks, medicine, medical devices. Our main products have precision CNC lathes, milling complex center, precision universal cylindrical grinder, flat grinder, precision EDM and other precision inspection equipments. The company passes ISO9001 authentication, and our equipments are mainly imported from Japan, Germany, Italy, Swiss and so on; and mold steel are mainly from Austria.	We hope to cooperate with European mould company and mould steel manufacturer, and we can have a talk with them in the areas of advanced designing scheme, patent, technology transfer and sales agent.
7	Sichuan Chengfei Integration Technology Corp., Ltd.	Sichuan Chengfei Integration Technology Co., Ltd. engages in designing, development and manufacturing of the tools and dies of outer panels for mid-grade and high-grade vehicles, equipped with advanced NC processing equipment, testing and debugging equipment. CITC passed the QM certification of ISO9001 and VDA 6.4. The die products have already been exported to European, North American and Asia-Pacific markets.	We hope to negotiate with automobile manufacturer and suppliers of automobile outer panels about the cooperation in the technology of die design and debugging, and the contacting or subcontracting of die products.
8	Sichuan Aimbong Mould Co.,Ltd.	Sichuan Aimbong Mould Co.,Ltd., founded in 1997, mainly deals with R&D, processing of machinery mold parts, manufacture and assembling of molds. Equipped with advanced mold manufacturing devices and injection molding machine, and with a professional team, the company has got the certificate of ISO9001:2008. In the past few years, Aimbong has provided services for enterprises of automobile, medical devices and electronics. Moreover, we have independently developed Aeolus Model helicopter which are exported to European, American and Southeast Asian markets. Besides, with rich experience of foreign cooperation, we have established a cooperative relationship with customers from USA , Austria, etc.	We hope to look for project cooperation in industrial design, mold manufacturing, auto parts, and medical equipment, and we can have a discussion on a joint venture.
9	Chengdu Shuangliu Hengtong Machinery co.,ltd	Chengdu Shuangliu Hengtong Machinery co.,ltd, covering 45.5 mu, possessing 21,400 square meters of standard workshops, mainly works at machinery processing, structural components manufacturing and non-standard equipment manufacturing. Water-free and oxygen-free vacuum glove box is our main product.	Machinery processing, equipment manufacturing; and we welcome dealers and partners in the sales of our water-free and oxygen-free vacuum glove box.
10	Sichuan Huaqing Machinery Co.,Ltd	Automobile fittings, NC equipments and driving and fixing tools are the main businesses of the company. Our available advanced processing equipments are NC medium frequency furnace, planer milling machine, etc. The automobile drive shaft has passed the ISO/TS16949-2002 certification. And the driving tool has attained the United States "UL" safety authentication, which is mainly exported to the USA.	The company hopes to seek a partner in a form of joint venture to cooperate with the European enterprises on automobile fittings, NC equipments and driving and fixing tools. And we hope to introduce advanced manufacturing techniques, production lines or products, etc.

EU-China Business Technology Cooperation Fair VIII

21-23, Oct. 2013 Chengdu, China

Sector: *Manufacture*

11	CHENGDU XINGKEDA ELECTRIC EQUIPMENT CO.,LTD	<p>With a registered capital of 12million RMB, the company mainly produces complete series of standard and non-standard low-voltage distribution (control) box, cabinet as well as bus duct and cable bridge, which are broadly applied in power distribution and control system of commercial property, residential houses, municipal engineering, industrial enterprises, data processing center, hotels, communication, electricity, transportation, metallurgy, mine workings, petrochemical engineering, etc.</p> <p>The company has passed the authentication ofISO9001 and CCC. The company has all-around strategic cooperation with Schneider Electric Group(France), ABB electrical appliance company(Swiss), Moeller Electric Ltd(Germany) and Hager company(France) on components supply, authorized manufacturing, technology transfer, quality assurance and after-sale service. Since 2005, it has accomplished 4 creative projects at provincial, municipal and district level, and it has won 7 patents.</p>	The company hopes to have negotiations with European enterprises engaged in energy control and transmission equipment on joint venture, production, subcontracting, technology transfer and technical cooperation.
12	Chengdu Xinzhu Road & Bridge Machinery Co.,Ltd	<p>Main products:</p> <ol style="list-style-type: none"> 1.Bridge components : Manufacturing, research, sales of bridge bearing, pre-stressing, anchorage system, expansion joint (some with CE); applied in many bridge construction projects in Europe, Africa, Asia. 2.Noise barrier: One of the largest noise barrier manufacturers in China. 3.Construction machinery: Asphalt paver, concrete mixing plant, excavator, concrete mixer truck. 	Cooperation of technology and marketing on products(mentioned above) in China and in Europe.
13	CETC Avionics Co., Ltd.	<p>CETC Avionics is a subsidiary of China Electronics Technology Group Corporation (CETC) who is the largest state-owned IT/Electronics Corporation in China. CETCA was founded in 2009, located in Chengdu, China, mainly responsible for four work packages (CN/IFE/IS/ECS) of China's C919 large aircraft program. Now CETCA mainly engages in five business areas: civil avionics system, maintenance, air traffic management, general aviation, and simulation and training. We now have a joint venture with Thales for IFE, and we have another joint venture to set up with Rockwell Collins for CN. Also,we have project cooperation with Panasonics for ECS.</p>	We hope to communicate with companies in avionics, general aircraftOEM, flight simulator (FTD, FFS) manufacturer; proposed cooperation modes: joint R&D, technology transfer/technology cooperation,subcontracting, etc.
14			

EU-China Business Technology Cooperation Fair VIII

21-23, Oct. 2013 Chengdu, China

Sector: *Manufacture*

15	Chengdu Yongyi Pump Industry Co., Ltd.	<p>Chengdu Yongyi Pump Industry Co.,Ltd is a hi-tech enterprise certified according to ISO9001 quality system and a member of China Phosphate Industrial Association.</p> <p>The company owns the advanced corollary equipments for resin manufacturing, melting, machining and inspection, large-volume intermediate frequency furnace melting and machining equipment, advanced computer-aided design system and testing system of pump performance parameters.</p> <p>The company provides products and services as follows: Slag pump, Chemical course pump, Helical Flow pump, Axial Flow pump, Mixed Flow pump and Beater.</p>	<p>In order to meet the demand for the further development of our company, now we want to seek a long-term cooperation with manufacturing companies and research groups who engages in producing and researching the high quality silicon carbide ceramics materials, super corrosion-resistance and super abrasion-resistance materials and other new chemical metal materials.</p> <p>The cooperation form includes production and manufacturing, technical cooperation and so on.</p>
16	Chengdu Action Electronics Joint-stock Co., Ltd	<p>Chengdu Action Electronics Joint-stock Co., Ltd., a high-tech entity integrating design, development, production, sales with engineering service as a whole, has developed into a well-known brand enterprise. Its marketing and service network covers throughout China. Our intelligent gas detection & alarm system and fire & gas solutions are widely used in government-invested projects and tens of thousands of large and medium-sized projects in semiconductor, steel, petrochemicals, medicine, and city gas fields, etc.. ACTION sincerely hopes to cooperate with the corporations manufacturing gas sensor as well as the ones having sensor-related technology to achieve win-win benefits.</p>	<p>Through participating in the eighth EU-China B&T Cooperation Fair,we mainly hope to seek cooperation with Chinese and Euro enterprises specializing in machinery manufacturing and other European companies for technology cooperation, investment, agency of sensors and detection system and to strive to achieve win-win cooperation!</p>
17	SICHUAN GUTE VALVE MANUFACTURE CO., LTD	<p>GUTE VALVE mainly produces high-risk medium special valve, chlorine valve, check valve, gate valve, ball valve and globe valve. We have international ISO certification, special equipment manufacturing license. Now we have cooperation with countries like Saudi Arabia, South Korea, etc.</p>	<p>We wish to cooperate on all kinds of petrochemical engineering projects, and with valve enterprise experts in form of agency, research and development, subcontracting, import and export trade and technological cooperation, etc.</p>
18	SICHUAN GOLD-LINK INDUSTRY & DEVELOPMENT CO. LTD	<p>Our company specializes in manufacturing and exporting all kinds of fence products & machinery seal products of different materials since 1998. We supply a large quantity of fences and fence fittings to North America, Canada, Italy etc. Now, we are one of the biggest suppliers of North America in fence market. We also export machinery seal products to European country, such as France.</p>	<p>To cooperate with more customers in Europe is our target now. We hope to get to know more companies from Europe and provide for them fence products & machinery seal products with high quality but at a competitive price.</p>

EU-China Business Technology Cooperation Fair VIII

21-23, Oct. 2013 Chengdu, China

Sector: Manufacture

19	Hope Deepblue Air-conditioning Manufacture Co.,Ltd.	Hope Deepblue Air-conditioning Manufacture Co.,Ltd. is the largest refrigeration and air-conditioning equipment production base in Western China. It has numerical control machining center, Metal plate machining center, Helium Leak detector. The main products contain LiBr absorption chiller and heat pump, central vacuum hot water unit, which have been exported to Southeast Asia and EU. We've also got ISO9001, ISO14001, CE.	We are mainly seeking for ODM cooperation, overseas distributors, agents.
20	Sichuan Deep&Fast Oil Drilling Tools Co. Ltd	We specialize in designing, manufacturing, marketing and serving the high performance PDC bits and drilling tools used in petroleum industry. All the products are made in accordance with the API, meanwhile, we have been respectively awarded the ISO9001 certificate and ISO14001 certificate. Generally, we export our main products of PDC bit and down-hole motor to petro countries.	We are looking for the agent to sell our products in overseas market. Also we want to cooperate with some companies which owns the technology of designing, processing ,manufacturing the high performance down-hole motors.
21	Dongfang Hitachi (Chengdu) Electrical Control Equipment CO., LTD	Main Products: High-voltage power inverter, Photovoltaic inverter and Static var generator etc. Certification: ISO9001, CE, TUV, SAA and CQC, etc.	Technological cooperation and trade
22	SICHUAN ZHONGZI EXHAUST PURGE CO., LTD	Sichuan Zhongzi Exhaust Purge Co., Ltd is a high-tech enterprise in China specializing in development, manufacture and sales of catalyst for gasoline engine, diesel engine and CNG/LNG/LPG engine and other alternative engine emission, with the support of Sichuan University. The production capacity of catalyst for motorcycle has reached 10 million pcs/year, gasoline vehicle catalyst 2 million liters/year, CNG/LNG/LPG catalyst 1 million liter/year, diesel vehicle catalyst DOC 1 million liter/year, DPF(CDPF, POC) 1 million liter/year, SCR 6 million liters/year. We have got the certificate of ISO/TS16949:2009 quality control system.	We are looking for cooperation on technology and application of vehicle exhaust purification.
23	Chengdu Jianfeng Forestry Industry Co., Ltd.	Chengdu Jianfeng Forestry Industry Co., Ltd. (J&F Corporation) is one of the most important raw material suppliers in Chinese flooring , furniture and melamine-faced board industry. So far, J&F has 5-year foreign trade experience and has passed the ISO9001/2000 Quality Management System. Its main products are decorative paper, melamine paper, flooring liquid overlay, artificial board and melamine-faced board, of which decorative paper, melamine paper and melamine-faced board are sold to international areas like North America, Australia, Europe and Southeast Asia.	Hoping to cooperate with manufacturers of panel furniture, laminate flooring, cabinet, door and HPL in terms of the import & export trade of decorative paper, melamine paper and melamine-faced board.

EU-China Business Technology Cooperation Fair VIII

21-23, Oct. 2013 Chengdu, China

Sector: *Manufacture*

24	Sichuan Huiyuan Optical Communications Co., Ltd.	Its featured products have four series, including power fiber optic cable (ADSS, OPGW, OPPC); micro air blown cable, fiber optic unit and micro air blown cable tube; various types of sensing cable and detection cable; user oriented fiber and optical fiber ribbon. Huiyuan establishes the quality, environment, and health and safety management systems according to the requirements of ISO9001, ISO14001, and OHSMS18001. Huiyuan's sound management system, complete detecting and testing machine, and prominent R & D and technology innovation capacity make its featured products gain high market share and quality reputation among domestic and overseas customers. Huiyuan products are largely exported to Europe, southeast Asia, south America, Africa, Oceania and some other regions.	To cooperate with European countries in terms of import and export trade.
