## STRENGTH, PROFESSIONALITY AND TRADITION

A unique platform  
for the presentation  
of security and  
defence industry  
products

Presentation of  
innovations and  
modern approaches  
to defence and  
security

Strong participation  
of major  
representatives  
of defense  
government  
departments and  
foreign delegations

High level of  
professionalism,  
participation of  
strategic partners  
and long tradition

Lucrative localization  
in Central Europe  
with regard to  
intensive cooperation  
within V4

# EXPLORE THE BENEFITS OF IDEB

Great opportunity to present, build and strengthen business contacts at both national and international level

Possibility to establish cooperation in participation in important investment projects on a global and regional scale with an emphasis on investment in Central Europe

Increased visibility of defence industry production on Slovak and foreign markets

Bringing activities of producers of the defence industry closer to representatives of defence government departments, armed forces, and other security forces in the important Central European market

# Challenges of the Fair

## IDEB 2020

The intentions of the Ministry of Defense of the Slovak Republic for the complex modernization of the armed forces and the replacement of obsolete equipment

Main priorities in accordance with the Long-Term Perspective of Armament till 2030:
