

Missions for Growth_ M4G China (18-20 July)

As we concluded last 15th of May at the meeting in Brussels on Missions for Growth and in the context of complementing national economic missions to third countries, we would like to give the opportunity to your National companies to join the Mission for Growth to China. For instance, it would be particularly interesting for the companies who have already participated in your **National Missions to China**, to return to this country led by Vice-President Tajani as a EU business delegation next 18-20 July 2013.

Therefore, we are glad to inform you that the deadline for **expression of interest** for the **Mission for Growth to China** has been extended to **16 June 2013**. Please kindly diffuse the information in your networks.

As you know, for the first time this will be a thematic joint mission on "Green growth" of of VP Tajani and Commissioner Potocnik, since European and Chinese companies are increasingly interested in the opportunities presented by new sustainable technologies and products.

As regards the schedule of events, detailed information will progressively be uploaded on the dedicated DG ENTR website, which includes the possibility for companies to inscribe to express an interest in joining the mission http://ec.europa.eu/enterprise/initiatives/mission-growth/missions-for-growth/antonio-tajani/asia/china/index_en.htm

I am at your disposal for any further questions you may have.

Kind regards,

Isabel LÓPEZ HERNÁNDEZ
