Founded in 1987 in Les Sables d’Olonne, OCEA specializes in the design, construction, and support of aluminum vessels. Our innovative solutions reduce CO2 emissions by 30–45%, fuel consumption by 10–20%, and maintenance costs by up to 30%.

With over 90% of our market focused on exports, we’ve delivered 350+ vessels to 40 countries. Our Maritime Safety and Security division provides custom solutions for Exclusive Economic Zone monitoring, asset protection, and special forces missions.

DEFENSE SEGMENTS

- Naval defense and maritime security.
- Strategic support for Exclusive Economic Zone (EEZ) surveillance, counter-piracy, and military logistics.

MAIN ACTIVITIES/PRODUCTS/SERVICES

- Design and construction of patrol vessels, interceptor boats, and support ships.
- Customized maintenance, training programs, and integrated logistics support (ILS).
- Turnkey maritime security solutions, including advanced sensor and surveillance integration.

VALUE PROPOSITION

- Lightweight, fuel-efficient aluminum vessels for operational cost savings.
- Proven expertise in designing versatile and mission-specific ships.
- Strong focus on sustainability and environmental impact reduction.

REFERENCES IN DEFENSE

- Delivered over 80 defense vessels to navies and coast guards worldwide.
- Trusted partner for nations across Europe, Africa, and Southeast Asia for enhancing maritime capabilities.
