**Embassy of the Republic of Slovenia in Bosnia and Herzegovina**

Maglajska 4  
71 000 Sarajevo  
Bosnia and Herzegovina

**Subject: Letter of Intent**

I use the opportunity to greet you warmly and thank you for your patience in reading this Letter of Intent in which we would like to introduce you to the opportunities and benefits of building capacity for the creation of new jobs in our municipality.

Our local community has taken a series of measures and activities to create a favorable business environment in relation to other municipalities, relying, among other things, on a favorable geographic position and comparative advantage of the Municipality at the border with the European Union and close to important communications – highway Zagreb-Beograd is only 5 km from Brod, railway line 3 km away, border crossing, customs terminal ...).

The Municipality fulfilled the criteria for BFC (Business Friendly Certificate – Municipality with Favourable Business Environment), it is interested in creating new jobs and has the following offer:

- Free-of-charge land assignment in an attractive business zone to build product-service capacities employing more than 50 new employees, or at a symbolic price if the number of new employees is less than 50.
- Very low costs of issuing building permits (rent and land development fee) with the possibility of deferred payment in 18 installments.
- No communal fee for the first business year.
- Installations of power, water, sewage and access road to the land border are provided by the Municipality.
- Net salary for newly employed workers from the area of the Municipality for the first business month of the newly built facility.
- Servile, agile, expert administration available to investors on all issues.

Expecting to support our local community and recommend The Municipality of Brod as a really favourable destination for investors and investments, I remain respectfully yours!

MAYOR

Ilija Jovicic
