

POWER CONNECT

18–20 III 2026

STEP INTO ENERGY WORLD OF TOMORROW!

POWERCONNECT IN NUMBERS:

PowerConnect offers a unique opportunity for companies that wish to actively shape the future of the energy sector. By becoming a partner of our event, you gain not only extensive brand exposure, but also **a real influence on the agenda and topics addressed during the fair**. Partners can co-create discussion panels, lead workshops and presentations, and contribute to the selection of speakers and key themes of the conference.

The primary goal of the **PowerConnect Energy Fair** is to build a strong community of companies eager to share their ideas and expertise in order to effectively increase their role in Poland’s energy transition. The event will bring together market leaders, specialized subcontractors, innovative technology companies, renowned experts, and key decision-makers responsible for the development of the sector in Poland and abroad.

ENERGY SECURITY

- Hybrid Warfare – How to Protect Critical Infrastructure?
- Safe Energy – A Shared Responsibility.
- Energy Storage as a Guarantee of Grid Stability.
- The Energy Transition and Polish Local Governments.

ENERGY TRANSITION

- EU Climate and Energy Regulations – How Can Poland Prepare?
- Financing Large Energy Investments
- Renewables and the Risk of Blackouts – Balancing the National Energy System.
- Full Power Ahead! The Future of Electromobility.
- The Future of Heating Plants: Hybrid Gas Systems, Biomethane, and Renewables.
- Integrating Biomethane into the Gas Grid: Challenges and Best Practices

LOCAL CONTRIBUTION

- Transformation, the Polish Way: How Polish Companies Enter Green Supply Chains
- Will We Have Enough Cables to Complete Poland's Energy Transition?
- Workforce for the Energy Sector: How to Find Enough Hands for the Transition?
- Net-Billing vs. Net-Metering: The Twists of Polish Photovoltaics
- Plan B: Communication Systems for Power Outages
- Local Participation in the Energy Sector – Standard, Obligation, or Competitive Advantage?

INVESTMENT PRESENTATIONS AT SUPPLIERS DAY

Are you trying to understand how the energy supply chain works? Do you want to find customers for your products and services? Join **Suppliers Day!**

Suppliers Day is one of the key components of PowerConnect, designed to address challenges in the energy sector's supply chain by connecting investors with qualified suppliers.

Companies will **showcase their investments, development plans, and procurement processes** on the main stage, in front of an audience composed of potential suppliers and subcontractors. It's an excellent opportunity to learn about their expectations, collaboration standards, and specific technical and organizational requirements. For suppliers and subcontractors, it's a chance to demonstrate their capabilities, establish new contacts, and discover real business opportunities.

Suppliers Day brings together the people driving the energy of the future!

IN THE 2025 EDITION, THE INVESTMENTS WERE PRESENTED BY:

CRITICAL INFRASTRUCTURE SECURITY ZONE

Discover solutions that protect what matters most!

The **Critical Infrastructure Security Zone** is a space where industry leaders showcase the latest solutions protecting key systems and facilities. It's the perfect place for experts responsible for the security of the energy sector and critical infrastructure.

Participants will have the opportunity to explore offerings in three main areas:

- ◆ **Cybersecurity** – protection of networks, data, and IT systems; threat monitoring.
- ◆ **Safety** – safeguarding people and processes; minimizing incident risks.
- ◆ **Security** – physical protection of infrastructure, access control, and monitoring systems.

The zone will also feature exhibits and technical solutions, allowing participants to directly engage with devices, systems, and innovations that enhance the resilience of critical infrastructure.

It is an ideal space for networking, sharing experiences, and discovering new tools that support organizational security in an ever-changing threat landscape.

SHOWROOM ZONE

We are opening a space where companies can showcase their latest devices, technologies, and solutions in action!

The **Showroom** is where innovation meets hands-on experience – here you can organize live equipment demonstrations, interactive presentations, and give clients and partners the opportunity to test your solutions in a comfortable environment.

It's an excellent chance to build relationships, gather user feedback, and demonstrate the real value of your technology. But it's not just about placing equipment in a space – the showroom is meant to be alive! It's a dynamic environment where participants can interact with technology, ask questions, observe it in real-world scenarios, and see its capabilities firsthand.

Enrollment to co-organize the Showroom Zone is now open – [Sign up today!](#)

MATCH-MAKING ZONE

Want to build valuable business relationships? Visit the **Matchmaking Zone!**

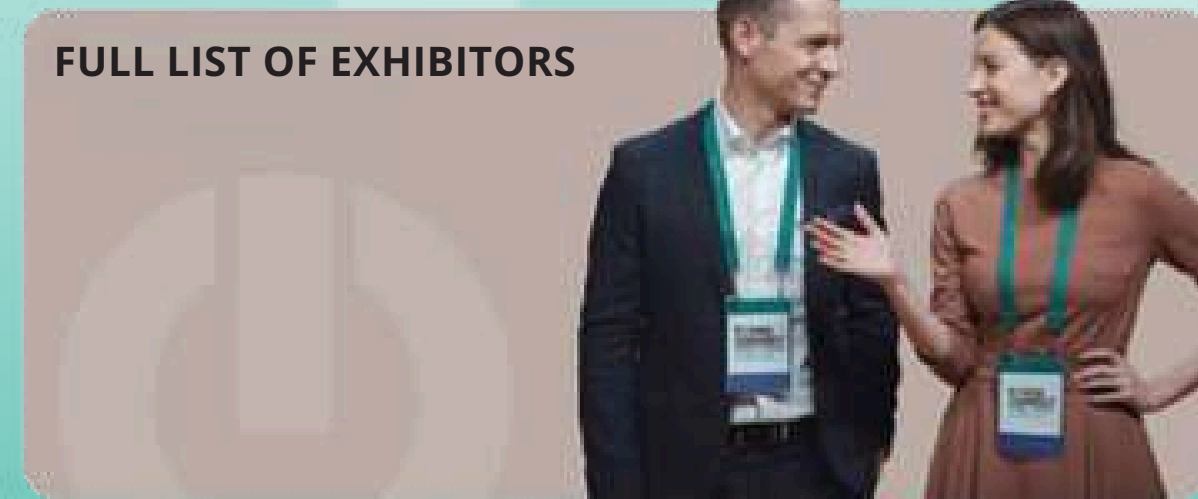

The Matchmaking Zone is a space dedicated to **organized B2B meetings** that help foster meaningful business connections during the event.

Through **the event app**, every registered participant has access to the matchmaking platform, enabling them to schedule meetings with other attendees – including exhibitors, partners, and guests. Meetings take place in a comfortable, designated area at the event, with access to meeting stations and technical support. It's an effective tool for networking and engaging in conversations that can lead to tangible collaborations. Here is what you get:

START-UP ZONE powered by infoshare

A special area at the fair where young, innovative companies will showcase their solutions. Participants will have the opportunity to see modern technologies developed by startups at various stages of development – from concept to finished product. It's a living laboratory of innovation that inspires and demonstrates how science meets business.

Startup booths featuring proprietary technologies and prototypes

On-stage presentations of startup projects

Ideas combining science, technology, and practical industrial applications

“POLISH CHAMPIONSHIP FOR ENERGY AND ELECTRICAL PROFESSIONALS”

COMPETITION FOR ENERGY AND ELECTRICAL PROFESSIONALS

Join the **Polish Championship for Energy and Electrical Professionals!**

This unique event combines solid technical knowledge, practical skills, and a healthy spirit of industry competition.

Three-person teams compete in two categories: **Energy** and **Electrical**. The challenges test not only participants' technical competencies but also decision-making speed, workplace safety, and the effectiveness of team communication.

Participants can look forward to:

- An exciting **grand prize** – a trip to a **Champions League** match
- A **professional starter kit** for each team
- The **opportunity to challenge teams** from other companies and gain industry prestige
- A unique chance to showcase skills and **network with experts** from across the country

The Championship is a fantastic opportunity to demonstrate your abilities, connect with industry colleagues, and compete for a prestigious title – all while having a chance to win the exceptional grand prize.

EDUCATION AND CAREER DAY

One of the key challenges in the energy market is ensuring a **skilled workforce**. Planned investments, such as the development of offshore wind energy and the construction of nuclear power plants, will require thousands of specialists and new competencies.

For this reason, the third day of **PowerConnect** will be dedicated to education and careers. Technical school students, university students, graduates, and individuals interested in changing careers will be invited. The program will cover topics such as reskilling, the sector's workforce needs, and career development opportunities in the energy industry.

The Education Day has been organized in cooperation with the **Marshal's Office**, which actively supports the development of competencies and the training of personnel for Poland's transforming energy sector.

POWERCONNECT NETWORKING

Connecting Evening Gala

An elegant evening featuring a **seated dinner** at round tables and a unique atmosphere designed to foster high-level conversations. During the gala, we will honor the **PowerConnect Award** winners, accompanied by an engaging artistic program. It's the perfect opportunity to build valuable business relationships and celebrate the shared successes of the energy sector.

PowerConnect After Hours

Prefer a more relaxed format for networking? Join us for an evening of **casual networking** in an inspiring atmosphere. Enjoy a buffet-style reception, subtle background music, and an open space designed to encourage natural conversations and quick connections. It's the perfect setting for those who value authentic interactions, spontaneous discussions, and a less formal approach to business networking.

EVENT CENTER GDAŃSK

The fair will take place at the AMBEREXPO Exhibition and Congress Center in Gdańsk. This is a venue with character – well-known and highly regarded. It has proven its capabilities numerous times in hosting international fairs and conferences.

Modern Infrastructure

Inspiring events

Comfortable meeting space

Good communication – 14 km to the airport, A1 highway

Great location – Gdańsk by the sea
