**SONG CONTEST
DUISSELDORF 2011**

Azerbajdžan – mistično zveneče ime za deželo vetra in ognja. Država tisočerih nasprotij, ki jo usodno zaznamuje izobilje nafte in zemeljskega plina. Zanimiv vpogled v nepozabno mešanico med evropejskim in vzhodnjaškim, med ekstremno revnim in ekstremno bogatim.

Leži v Zakavkazju ob Kaspijskem morju.

Prestolnica Azerbajdžana je Baku – mesto ob Kaspijskem morju.

Za Baku so značilna nasprotja: bleščeči nebotičniki, zakotne ulice, bleščeče mošeje, mize, ki se šibijo pod neznanskimi količinami hrane, lokalne trgovinice s preprogami in posodami.

Baku Fool moon hotel

Hotel Full Moon is essentially a disc with rounded edges and a hole in one of the top corners that appears radically different from the view depending on the angle it is seen from. The frontage appears more like a glass [Death Star](#) whilst the side profile does not feature any specialty and looks like an ordinary glass building . The Full Moon Hotel brings out more Dubaized style to [Azerbaijan Hotels History](#) [Changing appearance](#) depending on the view is reinforced by the cladding treatment the architect has selected. The front will have a glass diagrid whilst the back will be covered with hexagonal honeycombs shaped windows.

This main building will be a 35 storey luxury hotel with 104,182 square metres of space for only 382 rooms, a relatively small amount of rooms given the sheer size of the internal space on offer. It will reach a maximum height of 158.68 metres.

The hotel is linked via a zoomorphically shaped podium that snakes curvaceously around the boundaries of the site to two residential apartment blocks entitled [Palace of Wind One](#) and [Palace of Wind Two](#)
