## GENERAL STATUS

**In 2016, we are the world's ten largest PV module manufacturers according to the "PV manufacturing and Technology Quarterly Report 2016" published by SolarMedia and PV-Tech.**

## BRIEF INTRODUCTION

Risen Energy Co., Ltd was founded in 1986, which located in East Coast Ninghai, Zhejiang province, and its area is 50 acres. The registered capital is 649,912,224 RMB and Risen Energy successfully launched IPO in Shenzhen Stock Exchange Market on Sep. 2nd, 2010, Stock code: 300118. At the end of 2014, the employees in all companies are about 3000.

Risen Energy is a hi-tech enterprise which is engaged in R&D, production, sales and service of solar modules, products of photovoltaic technology, solar terminal application and integration. Now the annual capacity of solar cells and module manufacturing is 3.1GW and Risen Energy enters into top ten of modules industry in April, 2015. There is a standard level PV laboratory, which is independent and received CNAS certification. Not only it can meet the demands of testing products from Risen, but also it can provide the service for others. Risen insists on the mission of improving the energy structure by innovation of technology and improving the quality of human life.

Risen Energy follows the standards of TUV, UL, CE, GS, ROHS, REACH, PAHS, Golden Sun and others in quality, and manufactures the products with the quality system of ISO9001, ISO14001 and ISO18001. The products got the second rank in performance ratio in the global modules test which was organized by photon laboratory in 2013 and 2014.
