

## Dear exhibitor at Stockholm Furniture & Light Fair,

In response to the COVID-19 situation at the time, on March 12 the Swedish Government resolved to ban all large public gatherings and events until further notice. Over seven months later, no easing of restrictions on trade fairs has been announced, despite active lobbying from everyone in the industry. In addition, the pandemic has now reached a stage where infections are rising rather than falling, particularly in locations that are part of Stockholm Furniture & Light Fair's international catchment area.

Taking all these circumstances into account, it has become clear that holding Stockholm Furniture & Light Fair in February 2021 is no longer viable.

In consultation with the industry, we have therefore decided to cancel Stockholm Furniture & Light Fair 2021. The next iteration is now planned for February 8-12, 2022.
