上海聚科生物园区
SHANGHAI JUKE BIOTECH PARK

Initiated by Torch High Technology Industry Development Center, MOST of P.R.China, and Science & Technology Commission of Shanghai Municipality, the 19th International Workshop on Business Incubation will be held in Shanghai from Sep.19th to 25th, 2016. The theme focuses on Share opportunity & Co-development.

The workshop is one of the major training programs of AABI (Asian Association of Business Incubation) as well, targeting to business incubation managers, entrepreneurs and government officers. Since 1998, 18 workshops have been successfully organized and over 500 participants from 30 countries and regions have been well trained.

And is going to be a FTZ of the world

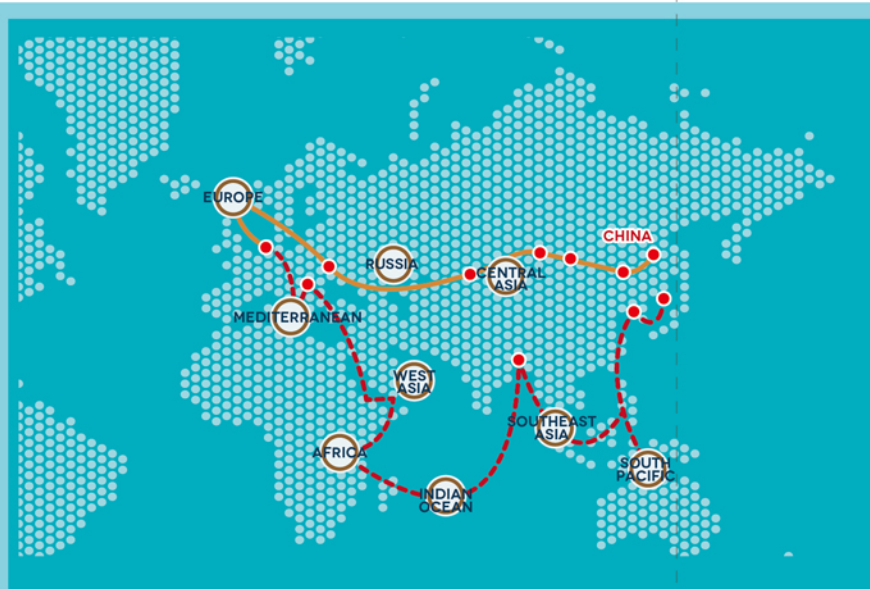

Theme

ONE BELT, ONE ROAD -- A NEW ECONOMIC PARADIGM EMERGES

"One Belt, One Road" is a development strategy initiated by China government in 2013. It refers to the New Silk Road Economic Belt, which links China with Europe through Central and Western Asia, and the 21st Century Maritime Silk Road, connecting China with Southeast Asian countries, Africa and Europe.

The scope of the "Belt and Road" initiative has continued to expand and now includes promotion of enhanced policy coordination across the Asian continent, financial integration, trade liberalization, and people-to-people connectivity.

The workshop aims to gather the participants from various business incubators and high-tech innovation service agencies in relevant countries along the "Belt and Road". It focuses on developing the cooperation of science, technology and economy, as well as promoting the mutual communication and integration of different cultures. In addition, the workshop helps to propose an international development strategy for domestic and foreign enterprises through the experience exchange.

MARITIME ROAD

TORCH HIGH TECHNOLOGY INDUSTRY DEVELOPMENT CENTER

MOST OF P.R.CHINA

Set up in 1989, Torch High Technology Industry Development Center (Torch Center) is an integral part of the Ministry of Science & Technology (MOST), China. With the general purpose of reinforcing the overall

environment for technology innovation and promoting high-tech industrialization, Torch Center seeks to achieve four major objectives by cooperating with other pertinent authorities at central and local levels.

- To perfect the support system for high-tech industrialization, focusing on promoting indigenous innovation
- To foster the growth of tech-based SMEs and boost technological innovation in enterprises
- To promote the development of innovation clusters and advance upgrades in high technologies
- To mobilize innovative resources including capital, technology and talent to reinforce support for innovation and industrialization

SHANGHAI INTERNATIONAL BUSINESS INCUBATOR (IBI)

Shanghai International Business Incubator (IBI) was established in 1997 with approval from Ministry of Science & Technology. It takes the organization model of “One Incubator, Several Bases”. Now IBI has 9 incubation

bases, including Shanghai Technology Innovation Center (STIC), Juke Biotech Park, Yangpu Technology Innovation Center, Withub Technology Innovation Center and Shanghai University Science Park, which represent the top 9 incubators in Shanghai. IBI aims to assist the domestic SMEs develop an internationalization strategy and seize the opportunities of global markets, as well as carrying out innovative and commercial cooperation for domestic and foreign enterprises.

Shanghai IBI works as the secretariat for Asia Enterprise Incubation Association. IBI is a member of the World Bank infoDev, a multi-donor program that supports entrepreneurs in developing economies.

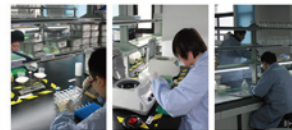

Organizer

SHANGHAI JUKE BIOTECH PARK

Shanghai Juke Biotech Park is a professional biotech industry cluster co-founded by Shanghai Xuhui Municipal Government and Shanghai Institutes for Biological Sciences affiliation of China Academy of Sciences in 2003. JUKE bears the commitment of biotech industry incubation by innovation talents training and technology transfer. Taking the advantage of technology, market and capital integration, JUKE endeavors to become a leading biotech industry cluster for R&D and innovative technology transfer in Shanghai. Within the past 13 years development, JUKE has set up three incubator divisions and one manufacture base in Shanghai, which has 120,000 m² industry space in total. So far, over 300 innovative biotech companies have settled down right here.

The member companies of JUKE are being served with a dual service model created by Juke Park, a Relay-cultivation Model served with start-up nursery, incubator, accelerator and Industry Park, and the other Company Incubation Model served with tutor, professional incubator and venture capital, respectively. JUKE dedicates to promoting the development of innovative biotech industry cluster in Shanghai and collaborates with other biotech parks in Yangtze River delta region.

Agenda
