

Webinar on Japan's 2020 space policy plan: update and opportunities for EU industries

In spite of COVID-19, the global Space industry experienced significant advances in 2020, likely to further develop into 2021. In 2020 Japan's National Space Policy Secretariat revised its basic plan on space policy aiming to reinforce Space exploitation and increasing contribution to Japan's economy:

(https://www8.cao.go.jp/space/english/basicplan/2020/abstract_0825.pdf).

This webinar will outline several areas of update in the 2020 revision act and introduce possible opportunities for EU-Japan industrial cooperation. The target audience for this event is primarily European Companies and SMEs interested in the Japanese space sector.

1. **Date and time:** March 11, 2021, from 17:00 to 18:00 Japan time (9:00-10:00 CET)
2. **Language:** English
