HELSI

CONSTRUCTION COMPANY ADAMANT, LLC.

a modern construction company specializing in the implementation of large-scale infrastructure projects in Ukraine

More than **100** infrastructure projects have been implemented

Main activities:

- Construction, reconstruction and overhaul of various types of transport infrastructure
- Execution of a complex of anti-landslide works with the arrangement of structures for mechanical retention of landslides
- Construction of industrial and civil facilities

The company's strategy is aimed at developing all major types of construction business, increasing the efficiency of the company's activities, expanding the range of competencies and developing strategic partnerships.

We are actively investing in the modernization and technical re-equipment. We are also developing the engineering and technical potential as well as implementing innovative solutions. The company has created its own engineering, research and design department, which deals with the drawing and reading of the projects.

Reconstruction of the second stage of the Chernobyl nuclear power plant main building. During 2016-2017 Adamant, LLC. took part in the transformation of the Shelter of Chornobyl NPP (in Pripyat) in an environmentally secure system.

Construction of multi-storey residential buildings with objects of social infrastructure, housing and office complexes, trade centres and public catering centres.

Reconstruction of artificial surfaces at Ozerne airfield (in Zhytomyr region).

Bridges, over bridges, overpasses. Construction of Velyka Okruzhna road in Kyiv (Great Ring Road).

Since the beginning of war in Ukraine the company's vehicles and its staff evacuated more than 6,000 residents from the Kyiv region (Irpın, Bucha, Bilohorodka) and from the city of Chernihiv: severely impacted cities by the russian occupational forces.

More than 200 company's buses were handed over to the Armed Forces of Ukraine for the transportation of humanitarian goods, most of which have been destroyed while crossing combat zones.

AUTOMATED PAYMENT SYSTEM IN PUBLIC TRANSPORT (APSPT)

Development of an e-payment software for public transport services

Installation of stationary validator systems on all types of land public transport

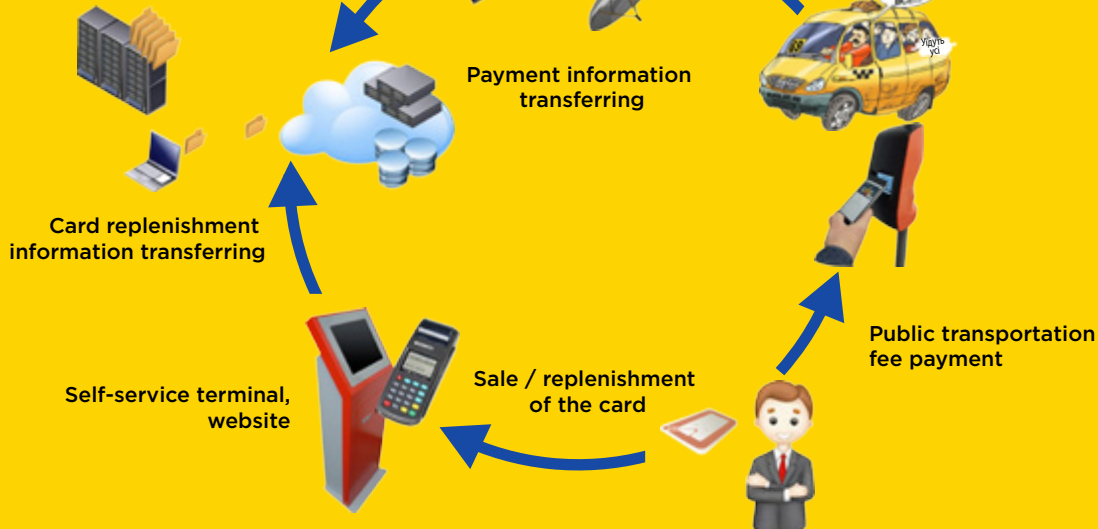

Electronic accounting of all types of payment: e-card, bank card

Methods of payment: cash (electronic accounting), transport card, bank cards with contactless interface, mobile payments

A system for replenishing transport cards via Internet is being introduced

RESEARCH INSTITUTE KYIVDORMISTPROEKT

This is the main structure in Kyiv for the development of road infrastructure projects in the capital. Almost all of today's road reconstruction and creation solutions of road infrastructure of the city have been developed by the specialists of the Research Institute "KYIVDORMISTPROEKT"

The team was based on specialists from the Kyivproekt Institute, which has a history dating back to the creation of a single city architectural and design workshop Kyivmiskproekt - Kyivproekt (1937).

THE MAIN DIRECTION OF THE INSTITUTE'S ACTIVITY

Design and consulting services in the field of road infrastructure construction and traffic organization, which are provided to both domestic and foreign customers

THE INSTITUTE PERFORMS CONSTRUCTION DESIGN OF BOTH NEW OBJECTS, AND THOSE, THAT ARE SUBJECT TO RECONSTRUCTION:

Motor roads, bridges and approaches to them, bicycle paths;

Road interchanges at different levels, transport tunnels, etc.;

Transport and pedestrian schemes of objects of any complexity and scale, car parks, parking lots; Hydraulic structures and landslide measures, water supply networks and storm sewers;

All external engineering networks of transport infrastructure facilities;

Traffic arrangement;

Participates in the master Kyiv development plan to be implemented until 2025.

more than
1500 km
of highways

about
250
transport interchanges
at different levels

more than
300
units of underground
and overground
pedestrian crossings

TOGETHER WITH THE LONDON BRANCH OF LOUIS BERGER, WE HAVE BEEN WORKING ON A METRO CONSTRUCTION PROJECT IN DNIPRO, UKRAINE

WE DESIGNED THE SECTION OF THE VOJEVODSKA ROAD N441 FOR THE POLISH FIRM LAFRENTZ

TOGETHER WITH THE FINNISH COMPANY TRAFICON LTD WE HAVE DEVELOPED A LARGE DOCUMENT ON PARKING STRATEGY FOR THE CITY OF KYIV

TRAFFIC MANAGEMENT PROJECT IN KYIV AND OTHER PROJECTS

MP PROMCOMPLEX, LTD

MP PROMKOMPLEKS LTD HAS 30 YEARS OF EXPERIENCE IN ELEVATORS
TRAVOLATORS, LIFTS INSTALLATION WORKS AND THEIR MAINTENANCE

- **PROJECT DESIGN AND ITS MAINTENANCE**
- **DEVELOPMENT OF THE ORDERED DESIGN ESTIMATES**
- **ADVICE ON SELECTION AND CHOICE OF THE NECESSARY EQUIPMENT**
- **MANUFACTURING, INSTALLATION AND REPLACEMENT OF ALL TYPES OF METAL-GRADE MINES**
- **SUPPLY OF ELEVATORS, ESCALATORS, TRAVOLATORS, LIFTS**
- **INSTALLATION AND LAUNCHING WORKS**
- **INSTALLATION OF DISPATCH SYSTEMS**
- **PUTTING INTO OPERATION**
- **MODERNIZATION, RECONSTRUCTION AND OVERHAUL**
- **WARRANTY AND POST-WARRANTY SERVICE**

OBJECTS OF COMPLETED COMPLEX WORKS

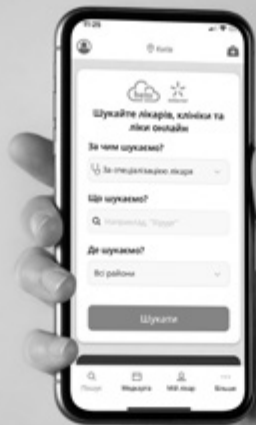

- **ADMINISTRATION OF THE PRESIDENT OF UKRAINE**
- **NATIONAL BANK OF UKRAINE, BRANCH OF THE NATIONAL BANK OF UKRAINE (SIMFEROPOL)**

- **NATIONAL PALACE "UKRAINE"**
- **HOTEL COMPLEXES DONBASPALATS, NATIONAL DNIPRO, DNISTER, PRAGA, BRATISLAVA, RUS**
- **DREAM TOWN MALL**
- **FACTORIES: COCA-COLA, REMTOCHMECHANICA**

HELSI — THE LARGEST ONLINE MEDICAL SYSTEM IN UKRAINE

- HELSI is a convenient and reliable electronic medical system designed for patients, doctors, public and private medical institutions
- The system is connected to eHealth
- HELSI automates the work of a medical institution, doctor, laboratory, hospital, maintenance of electronic medical records
- HELSI has a clear interface. It helps to generate reports, has various forms of medical documents
- HELSI provides technical support to its users 24/7
- HELSI power is located on De Novo servers that are protected by the KSZI certificate
- HELSI reliably protects patient's data. All data is stored in a data center that has received a certificate from the SSSI
- HELSI complies with all applicable software development regulations

- The cloud solution provided by HELSI does not require the purchase, configuration and maintenance of its own server capacity
- The system support provides training to work with the system on the ground, providing personal managers to support the work of the institution in the system
- The system has a certificate of conformity of KSZI, which allows partner medical institutions to save on obtaining a similar certificate
- HELSI provides multi-capacity - you can easily switch from another medical information system (MIS) without any data loss or vice versa
